

ON THE ROAD

**WE'LL BRING NATURE TO
YOUR CLASSROOM**

Need a creative and hands-on nature program
to visit your classroom?

GRNA has programs that tie in with
Next Generation Science Standards.

Ecosystems
Life Cycles
Animals
Earth Science
Environmental Impacts

A Grass River Naturalist will travel to your classroom to present an interactive, hands-on nature program. Program examples include:

**The Living Great Lakes
Live Animal Program
Habitats and their Inhabitants
Naturalists Needed
A Field Guide to NW Michigan**

We are also happy to create custom programs on any topic or concept of study.

“The hands-on lessons directly tied to our curriculum and allowed for a deeper understanding of the material. Your presentation allowed the students to connect the classroom learning to their own backyard”

RATES

Classroom presentations available year-round. Rates are for a one hour program.

Distance from GRNA Center one way (in miles)

<u>0-15</u>	<u>16-30</u>	<u>31-45</u>	<u>46-60</u>	<u>61-75</u>
\$120	\$160	\$190	\$220	\$250
